Sophisticated technology. So simple to use.

The sophistication you want – without the complexity.

- ▶ Brilliant sound
- ▶ Sophisticated technology
- ▶ Automatic performance
- ▶ Convenience
- ▶ Comfort
- ▶ Ease of use
- ▶ Style

Indigo Adjusts to Your Life

Indigo automatically adapts to your listening environments without the need to touch a thing. The intelligent sound classifier instantly analyzes the sounds in your environment and automatically determines which of four real-world “sound destinations” will give you the best listening experience.

Sophisticated and Adaptive

Indigo™ brings together sophisticated and innovative features that adapt automatically to every situation. This premium feature set assures you of the most comfortable and brilliant listening experience:

- ▶ Advanced speech enhancement
- ▶ Multiband adaptive directional microphones
- ▶ Music enrichment
- ▶ Noise reduction
- ▶ Feedback canceller
- ▶ Sudden noise control
- ▶ Wind noise manager

Quiet Destination

From quiet conversations to more subtle sounds like the rustle of leaves, Indigo lets you experience a natural connection with your total surroundings.

Group/Party Noise

In situations where there are many competing sounds, Indigo automatically adjusts to improve speech intelligibility and clarity.

Intense Noise

Indigo adjusts to noisy environments to deliver a more comfortable listening experience without sacrificing audibility.

Music

No matter what type of music you love, Indigo’s unique approach delivers every note the way it was meant to be heard.

Everyday Convenience

Indigo keeps things easy, with thoughtful convenient features that ensure everyday use is simple and enjoyable.

Ideal volume indicator - Indigo emits a single beep at your correct volume setting. This convenient feature lets you know just where to set your volume, ensuring you’ll never miss out on a conversation.

Automatic telephone solution - When you pick up the phone, Indigo automatically switches to the program for telephone use. When you put down the phone, you’ll automatically be returned to your previous listening program.

Indigo is available in a full range of styles and colors, including open fitting options, Moda™ and Moxi™.
